MM12

Ratings

Quality 100% fescue mixture for tees, fairways and roughs

MM

- Excellent wear tolerance for a fine turf mix
- Good, year round appearance
- Lower nutrient, irrigation and maintenance requirements
- Produces a fine, dense, disease resistant sward
- Excellent mixture particularly for new constructions

For excellent wear tolerance and recovery on existing and new golf tees and fairways.

Ideal for divotting, overseeding and new construction work

This mixture is treated with Headstart® GOLD
