Salt tolerance

Shade tolerance

The leading mix for cricket wicket end of season renovation work and mid-season repairs. MM50 contains a blend of fine-leaved ryegrasses that together produce an extremely hard wearing, dense surface that recovers quickly from use.

This mixture is treated with Headstart® GOLD

%	Cultivar	Species
40%	SINGAPORE	Perennial ryegrass
25%	ANISTON	Perennial ryegrass
20%	VENICE	Perennial ryegrass
15%	ALISON	Perennial ryegrass
